## Capture One partners with **LOOKSLIKEFILM** to deliver its signature looks

**LOOKSLIKEFILM** launches its first Capture One Style Pack, created by founder Lukas Piatek to bring the look and feel of the community to a new platform

COPENHAGEN, September 26th, 2019: Capture One, the world's premier name in photo editing software has partnered with LOOKSLIKEFILM, the beloved and dominant creative community distinguished by its unique film-looks, presets, and the famous 'Choo Choo' promotional feature.

For the very first time, LOOKSLIKEFILM imagery can be achieved and enjoyed

with speed and ease on a whole new platform, opening up the inspiring visuals and LOOKSLIKEFILM experience to a whole new audience, and introducing its current audience to a new world of creative power with Capture One.

'*Reverie Styles*' will be the inaugural Capture One Style pack from LOOKSLIKEFILM, meticulously curated and refined by LOOKSLIKEFILM founder, Lukas Piatek. The Style's color palette is very adaptable, and pairs just as beautifully with moody cinematic edits to as with clean film-like looks.

*"The Reverie Styles was developed to make photo editing as efficient as possible, and I am so excited and simply cannot wait to see what all of you will be able to achieve with this set,"* said Lukas Piatek. *"The Styles can be your final edit or your first starting point, but there is enough room to experiment and create your own personalized look,"*

'Reverie' will include 8 Styles in total; 4 color and 4 B&W. Between them, users will find perfect choices for everything from overcast days to blue hour:

Reverie – Alpha: Warm-up shadows, clean whites, and nice contrasts. Perfect for overcast days with even soft light.

Reverie – Beta: A beautiful style that throws a warm layer of tones over highlights and shadows. Works really well for blue hour photos but is pretty versatile.

Reverie – Delta: Gives a wonderful clean look across the color palette, so for classic and timeless looks, this will be your first option in any scenario.

Reverie – Gamma: 'Moody' is the word that perfectly describes this style. A yellow-reddish mix of mid-tones and shadows will make this style perfect for golden hour shots.

Reverie – BW Styles: All of the black and white styles are made to give your images a cinematic feel and finish. From clean and strong contrasts over to faded highlights & shadows. Each style will give you the perfect result for images that need that special monochrome look.

The Reverie Style pack combined with the pro editing tools and intuitive

interface of Capture One allows users to make stunning and consistent images in just a few clicks.
